

Flexible Packing Extractors

Product Information

These flexible extractors are designed to facilitate the removal of old packing of any size. The long flexible shank of the extractors makes access easy, even to those glands in the most awkward positions. The hardened and tempered steel screw end is designed to give maximum penetration into the packing. The Extractors are supplied in four sizes, as follows:

SIZE 1 for 1/8" (3.2mm), 3/16" (5mm) and 1/4" (6.5mm) packing.

SIZE 2 for 5/16" (8mm) and 3/8" (9.5mm) packing.

SIZE 3 for 7/16" (11mm) and 1/2" (12.5mm), 9/16" (14.5mm) and 5/8" (16mm) packing.

SIZE 4 for 3/4" (19mm) packing and upward.

Extractors may be ordered in any quantity of individual size or in boxed sets comprising one each of the four sizes.

The pattern "C" extractors have the corkscrew tip integral with the extractor while the pattern "R" has a replaceable tip. The preferred type should be specified when ordering.
